The Libertarian Party is American as apple pie.

Like you, we have jobs, businesses, families and dreams.

We've entered the political arena to restore liberty and American values. We're working toward a government that taxes and spends less, and won't interfere with your personal life.

If you describe yourself as socially tolerant and fiscally responsible, you're a Libertarian!

We believe you – not the government – should decide how to run your life, checkbook, retirement, education and family.

The Libertarian Party supports your right to:

- * keep what you earn. Reduce or eliminate taxes whenever possible.
- * run your own business and enjoy your property. Reducing regulations and paperwork creates more jobs, higher pay, and lower prices.
- * educate your children as you see fit.
- * choose your own lifestyle. The government shouldn't consider you a criminal because of your choices in relationships, recreation or medical treatment.
- * truly equal treatment under the law regardless of race, gender, religion, sexuality, or personal characteristics.
- * own a firearm. Self-defense is a right, not a political favor.

With over 60 elected Libertarians in California and over 525 officeholders countrywide, we're a real and growing choice.

**Republican Party**

Republicans are proud of the leadership provided to our country by President George W. Bush. Here in California, the Republican Party is following President Bush's lead so that we may also earn the privilege to be the political party that leads all Californians.

We seek to elect a governor that will lead all Californians who want to restore California to its once proud status as a model state for world class education, sound infrastructure, environmental protection and economic prosperity.

California can no longer afford budget deficits, blackouts, increases in our car taxes, lost jobs, and closed businesses. We need a Governor who will work with everyone to make California a leader once again.

Electing Republicans to office in California:

- Ensures excellent and accountable public schools for our children and grandchildren.
- Ensures affordable and accessible health care for children, families, and seniors.
- Stops runaway spending that saddles future generations with debt and current families with higher taxes.

Join us in returning California back to the people.

Office of the Secretary of State

6 August 2003

Dear Ms. Southard,

While I am no longer the State Chair (Marsha Feinland, out of state this week, holds that position until August 2004), I have consulted with the other officers of the State Central Committee of the Peace and Freedom Party, and we have reached agreement on a statement to submit for inclusion in the ballot pamphlet for the 7 October election. On behalf of the State Central Committee and its Chair, I append the text. I would note that all the rules specified in your letter have been followed. While we do not refer to any candidates of other parties, we do mention our own endorsed candidate, CT Weber, and we mention the recall itself and our position on one initiative, which appears to be acceptable under the stated rules.

Kevin Akin, for the State Central Committee

Text of statement:

The Peace and Freedom Party stands for the rights and needs of working people - those without wealth in a society run by and for the wealthy. We stand for political and economic democratization.

We need full employment, a much higher minimum wage, an end to poverty and homelessness, an end to racism, sexism and all discrimination and oppression. We need public ownership of public utilities, and to move toward public ownership and democratic control of industry - democratic socialism.

Right now, we need to shift the tax burden to the corporate rich, roll back student fee increases, reverse shameful cuts in health care and "safety net" programs, protect the environment, and adopt election laws that end the stranglehold of money over politics, and safeguard our votes. We need peace, and we must defend the Bill of Rights.

Vote "No" on the recall, an attempted right-wing power grab. Vote "No" on Proposition 54, designed to cripple the fight against discrimination. And vote for union activist C.T. Weber for Governor to show that you favor a California run by and for the working class.

To send a clear message of support, register to vote "Peace and Freedom Party."

AMERICAN INDEPENDENT PARTY BALLOT PAMPHLET STATEMENT
FOR OCTOBER, 2003 SPECIAL ELECTION

California needs the new leadership offered by the American Independent Party, California affiliate of the national Constitution Party.

The A.I.P. will:

Stop the rape of the consumers and taxpayers by the giant energy/utility monopolies;

Put the State on a balanced budge; end extravagant spending; reduce costly bond financing which has ruined the State's credit rating; and get rid of oppressive taxes such as the hated car tax;

Continue to require that the State budget be approved by a two-thirds vote in the Legislature;

Promote continued development of California's water resources for the benefit of farmers, families, and industries;

Encourage high wage manufacturing jobs for American workers, not transfer of these jobs to foreign countries;

Strictly enforce the immigration laws and stop all tax benefits to illegal aliens;

Support high standards in education, including encouragement of private schools and home schooling;

Defend Second Amendment rights of firearm owners;

Protect the right to life of the innocent unborn; and

Stop judicial abuses such as the recent ninth circuit Court of Appeal decision to take "under God" out of the Pledge of Allegiance.

Californians need the American Independent Party and the American Independent Party needs your support. Vote American Independent!

CALIFORNIA DEMOCRATIC PARTY

SENATOR ART TORRES (RET.), CHAIRMAN

The California Democratic Party is joined by a statewide coalition of "Californians Against the Costly Recall" to urge a NO vote on this irresponsible and chaotic recall.

Governor Davis was elected in 2002, now California taxpayers are forced to spend \$67 million for a second election - just eleven months later! These political shenanigans will not solve America's economic mess.

Forty-seven governors have deficits in their states this year, and most were larger than what economists had predicted. Through Governor Davis' leadership, a budget was signed, eliminating a \$38 billion deficit.

Governor Davis signed some of the best laws in America, including Family Leave, adding a woman's right to choose to our Constitution, fighting global warming, stem cell research to find cures for Alzheimer's, Parkinson's and Muscular Dystrophy. Many of the same people against those laws are now leading the recall.

Join law enforcement, firefighters, teachers, business leaders, the bipartisan California Business Roundtable, thousands of community organizations and others to say NO to this recall and get back to solving California's problems.

Proposition 54 must also be defeated – a poorly written initiative that statewide healthcare organizations say may have a devastating effect on public health and hinder hate crime investigations.

Natural Law Party

The Natural Law Party offers voters forward-looking, common sense, prevention-oriented, scientifically proven solutions to America's problems. Our principles and programs are based upon the newest scientific knowledge revealed by quantum physics—the discovery of a unified field at the basis of all the diverse natural laws that govern our complex universe, the underlying unity of life, and the fundamental interconnectedness of all things.

We support:

Innovative programs for developing the full potential of *all* our students, and local control of education

Promoting more prosperous, harmonious international relations by exporting U.S. know-how rather than weapons, supporting a Department of Peace on the national level, and establishing a commission to research and recommend peaceful solutions to terrorism

Ending special interest control of politics by eliminating PACs

Revamping our health care system including the addition of natural health care programs shown to prevent disease and cut costs

Ensuring a strong economy by lowering taxes responsibly and eliminating wasteful spending

Field-tested crime prevention and rehabilitation

Increasing renewable non-polluting energy sources, thereby limiting our dependence on fossil fuels

Strong environmental laws that ensure a healthy and pure environment

Safeguarding America's food supply through sustainable, organic agricultural practices, and labeling and safety testing of genetically engineered foods
